**TIP #1**

Create safer, more  
playable fields with the  
**Keep America Playing® Tour.**

INTRODUCING

[www.KeepAmericaPlaying.com](http://www.KeepAmericaPlaying.com)

Helpful tips are just one way the Keep America Playing® Tour is educating everyone from professional groundskeepers and coaches to parent volunteers. The tour promotes the importance of safe and playable sports fields, and how to construct and maintain them. Visit [www.KeepAmericaPlaying.com](http://www.KeepAmericaPlaying.com) or continue reading to learn about the vision of the Keep America Playing Tour, and how you can become a part of it.

Our nation's athletes deserve the safest, most playable fields possible. The Keep America Playing® Tour envisions a nation of these fields. That's why our mission is to educate coaches, groundskeepers and volunteers on how to create and maintain the best possible fields. With your help, we can all Keep America Playing.

[www.KeepAmericaPlaying.com](http://www.KeepAmericaPlaying.com)

## Online

[www.KeepAmericaPlaying.com](http://www.KeepAmericaPlaying.com) is the hub for the tour. There you'll learn more about our mission and how you can get involved in it. It's also the place to check often for continually updated event announcements, information about our partners and downloadable educational resources.

## Partnerships

We couldn't make our vision a reality without the help of key industry partners. Their expertise and resources are key to the success of the Keep America Playing Tour. If you're interested in becoming a partner, please contact us on our web site.

Presented by:

Turface Athletics™ connects you to the industry's largest network of sports field knowledge and to products that have been used on more sports fields than any other brand for over forty years. [www.turface.com](http://www.turface.com)

Supporting Partners:

PONY™ Baseball and Softball is designed to "Protect Our Nation's Youth" by providing experiences in youth baseball and softball that will help young people grow into healthier and happier adults. [www.pony.org](http://www.pony.org)

The ABCA is a professional association consisting of over 6,400 coaching members. Coaches come from all levels of amateur baseball, representing 50 states and 29 countries. [www.abca.org](http://www.abca.org)

21st Century Aeration  
A PROFILE PRODUCTS LLC Company

DryJect® is a revolutionary service which, when added to your maintenance program, can reduce the need for core aeration and greatly amplify its benefits. It aerates, topdresses and amends in one pass on greens, tees, fairways and sports fields. [www.dryject.com](http://www.dryject.com)

## Events x

The Keep America Playing Tour is hosting educational events across the nation. We're touring the country to educate people through:

### National Symposiums

2-day sessions in major cities that include classroom training, speeches from nationally renowned experts, specialized curriculum that caters to your specific interests and on-site training at a local field reconstruction.

### Regional Events

Recognized industry experts are your guide for hands-on training events and educational sessions.

### Local Field Days

Our local field days are perfect for basic field maintenance education and guidance on your specific field from a local sports field expert.

[www.KeepAmericaPlaying.com](http://www.KeepAmericaPlaying.com)

## Outreach

Through our valued partnerships and a dedicated media outreach program, we're spreading the word about field education and getting everyone who's interested in better field maintenance involved in the Tour. For more information or to find out how to get involved, visit [www.KeepAmericaPlaying.com](http://www.KeepAmericaPlaying.com).

# Know what you're putting in the ground.

When searching for an infield conditioner or soil amendment, look for calcined clay. Calcined clay products feature more consistent particle size and ideal porosity compared to products made from vitrified clay or aggregates. Turface®, the leading calcined clay, absorbs the most water which creates a surface that's safer and less susceptible to compaction. That's why it's used on more ball fields across America than any other brand.
